

# Virtual Community Listening Sessions

## Viral Hepatitis

Viral hepatitis greatly impacts Pennsylvanians across the state. However, hepatitis B and C are treatable, and viral hepatitis can be eliminated in Pennsylvania. Please join us to share your experience navigating hepatitis B or C in PA. Your participation will help to improve services and reduce disease across the state.

We are looking for participation from:

- People living with hepatitis B
- People living with hepatitis C
- People cured of hepatitis C
- People at risk of viral hepatitis
- Family members/friends of people living with/cured of viral hepatitis

How can you get involved?

- **Complete an Online Anonymous Survey** - click on URL or type into browser:
